

GREENS LIAISON REPORT – December 2022

Dear Members

Not much to report, as weather has greatly reduced the ability of greenkeeping staff to work on the course.

- Winter tees have been mostly tidied up
- All benches have been cut round and weeded and the ball washers.
- Paths in heavy areas of use have been given some cover with washed stone or sand.
- Some new plants have been put in the raised beds on way to the course.

I am now stepping down from this role after tonight's meeting.

I would like to thank the committee for all their support over the years, especially Mr B Harrison with his help both on and off the course and of course, the members for all their input during the time I've been in post.

I shall be carrying on my little jobs around the clubhouse etc .

Finally all the best to the member who takes over this position and know that you will get as much satisfaction out of the job as I did.

Good luck and best wishes to the new Captain Ian Fane and the rest of Captains and committee members for a great 2023.

Yours
I MacDonald
Greens Liaison
