

## **GREENS LIAISON REPORT – 7 FEBRUARY 2022**

Dear Members

Greens have been sprayed.

Rough has been cut.

Cages have been fitted at the 2nd hole, now waiting for rocks to be delivered to fill the cages.

Just started to replant shrubs etc around the Clubhouse and putting green.

Completed a course walk last month with Brian Harrison and Lee Woodward to look at installing flat distance markers on the tees instead of the bricks that have historically been used (and become overgrown).

When weather gets warmer the ball washers will be painted.

Please do not hesitate to contact me during the year with any further queries regarding the course.

Yours  
I MacDonald  
Greens Liaison
