

GREENS LIAISON REPORT – 6 MARCH 2022

Updated 9th March 2022

Dear Members

Not much to report this month.

Greens have been treated (you may have noticed visible granules).

Cages fitted at the 2nd hole, works to fill the cages with rocks has been continuing; still ongoing.

Fairway 150 markers have been installed.

Hopefully over the next few weeks the permanent tee markers will be in place, weather permitting.

We are back on the tees but we are still struggling with the wet weather.

Will find out when they hope to end the buggy ban but there are many courses in the same boat; we even had a buggy ban for two days in Turkey last week.

Ball washers - cut and weeded at base

Benches - grass cut round them and weeded

Garden at 9 tidied and tree behind 8th green weeded and tidied up.

Hope you all enjoy the new golfing season.

Please do not hesitate to contact me during the year with any further queries regarding the course.

Yours

I MacDonald

Greens Liaison
